About Kaushik

According to Veron, art is the manifestation of feelings, conveyed externally by a combination of lines, forms, colours, or a sequence of gestures, sounds, or words subject to certain rhythms.

B Kaushik from India is doing the same on sand. Popularly this form of art is known as sand animation. He uses his fingers to draw some heart touching stories on sand canvas.

Kaushik gets his inspiration from his childhood experiences. He used to draw pictures on window glasses at Shillong, where he spent his sweet childhood. His mother motivated him to create something different and as a result, a different art form developed on his fingertips.

He has a unique style. A conscious effort to become different always reflects in his work. He has also meticulously blended European touches to make it more contemporary and international. The depth and dimensions of his work placed him in a different category.

Drawing on sand on a light table, he is able to create powerful, fluid illustrations for large audiences with an overhead video camera projected on a large screen. His presentations have been seen by thousands of people leaving them with a sense of awe. Make sure you watch video clips of some of his presentations.

LOOKING BACK

He develops some superb customized, motivational, mythological and social stories based on the interests of a particular community/audience.

Different national channels and media likes BBC World, Aakash Bangla, AAP Aananda etc have already covered his performances.

He has performed in over ten countries for many companies and sports events like Formula one – Noida, T20 World cup, Dish Tv Zinc.

He has included different magical effects, sounds, music, and voice to make it more lively and interesting.

Now a day he is busy to convert the whole BIBLE into Sand Animation.
